CI With Jenkins	●●●○○
AWS	●●○○○
Docker, Kubernetes	●●○○○

Profile

A near decade long career in software development has only increased my appetite for bigger and more rewarding challenges. I have worked as a full stack developer with experience in all aspects of development. My core strengths are as a Java/Kotlin developer working with spring platform on the backend and VueJS on the frontend.

Summary

✓ 9 years experience in enterprise software development.

✓ Worked extensively with the tools and frameworks in Spring platform.

✓ Experienced in JVM languages including Java, Kotlin, Groovy etc.

✓ Worked with Relational DB like MySQl, OracleDB etc.. as well as NoSql Databases such as Elastic search.

✓ Good Knowledge of Docker and Kubernetes.

✓ Fairly Knowledgeable in frontend with experience in Angular and VueJS

✓ Experience in Profiling and performance testing JVM applications

✓ Experience in developing Continuous Integration Workflows using Jenkins.

✓ Beginner Knowledge in AWS as a developer

✓ Always eager to learn new technologies and architectures

✓ Have a Blue card valid until July 2022

Experience

Invia Flights GmbH
www.jda.com
May 2018 — Present
6 Months

- Worked on a Fraud prevention application
- Developed with spring boot with kotlin, with a VueJS frontend.

JDA Software
www.jda.com
Jul 2012 — April 2018
5 Years 10 Months

- Worked on multiple projects developing various supply chain applications
- Primarily used Java with Spring as well as other integration frameworks such as Camel, Kafka, activemq etc.

Siemens — SISL
www.siemens.co.in
Jan 2012 — Jun 2012
6 Months

- Interned at Siemen's Software division in Bangalore
- Worked on a research project designing static code rulesets for fxcop

EBT Pvt Ltd
www.ebtech.biz
Aug 2009 — July 2010
11 Months

- Developed Java servlets based web applications for procurement handling for a mid size client.

Chrysalis Information Systems
www.cislworld.com
Aug 2008 — Aug 2009
1 Year

- Developed business process applications for a translation company using Java and .NET.
